LA Star's Mandatory Parent/Guardian Meeting

Now that we are month into our competition season, and all our group dances have started choreography it is time for our mandatory parent/guardian meeting. The date and times are listed below as well as zoom information if you can't attend in person please attend via zoom.

Wednesday, September 9
4:45 pm or 7:45 pm

Zoom Meeting ID: 498 292 8567

A parent/guardian must attend for the dancer to proceed with the competition season and begin solos, duets, or trios.

We'll be covering important company policy changes, competition expectations, fees, deadlines, and everything you need to know for the season. Please make plans to attend.

Proper Dance Shoes

Many of our dancers outgrew their dance shoes over the summer. If that is the case you can have your dancer sized for ballet, tap, or jazz shoes by our front desk staff. We typically place orders weekly, so shoes normally arrive within two weeks of ordering. For specific pricing please check at the front desk.

You don't have to order shoes from us you are more than welcome to get them anywhere you would like. It is however important that your dancer has the appropriate footwear for class. Street shoes don't have a place in the dance studio. Even for Hip Hop we encourage you to have a separate pair of sneakers that are only worn in the studio. This helps maintain our nice dance floors, keeping all outside dirt outside.

We do also offer a barrow bin in the back hallway. So, if you have shoes that your dancer has outgrown, we would like to encourage you to donate them to the barrow bin. If you are donating a pair of shoes to the barrow bin and another pair in the bin fits your dancer, you are also more than welcome to them. These shoes are utilized for dancers that forget their shoes for class, students trying a new dance style and students that outgrow their shoes suddenly. Thank you for your help in maintaining a wonderful barrow bin.

Holiday Closure

Closed for Labor Day, Monday,
September 7, 2026. Enjoy the
long weekend with your family
and friends!

New Marley Dance Floor

We are excited to have new Marley flooring installed in the "C" room. Marley flooring offers our dancers a dependable uniform surface for dancing. It is a high-quality vinyl floor covering popular at many dance studios and stage performance spaces. Two of our three studio rooms now have this amazing flooring. In addition to being a great flooring for many styles of dance it provides a less slippery surface which is great for our tappers. So now our tappers can utilize both our "B" and "C" studio spaces comfortably. This allows for some flexibility with our scheduling and room rotations based on class sizes.

Please help us maintain our nice floors by only bringing water and dance shoes into the studio spaces. Street shoes can be brought into the room and placed on the shelf. However, all beverages that aren't water we ask that they remain in the lobby.
